**Course Programme 2018 for Master Programmes and Advanced Courses**

I am pleased to forward herewith a brochure together with a self explanatory letter received from KIT (Royal Tropical Institute) in Amsterdam, The Netherlands informing the Course Programmes 2018 for Master Programmes and Advanced Courses that are being offered at their training facilities in Amsterdam as well as other locations worldwide and through e-learning. In this manner, KIT equips health professionals with the skills and knowledge to address public health challenges around the world.

You may also wish to note that under the Netherlands Fellowship Programme (NFP) is offering multiple scholarships for KIT students taking their course for 2018 and the deadline is October 2017 for the Spring Course that will start in 2018. 2

More information on all related courses can be found on the website of KIT at [www.kit.nl/fellowships](http://www.kit.nl/fellowships) and a digital copy of the attached brochure can be found at [www.kit.nl/courses-brochures](http://www.kit.nl/courses-brochures)

It will be appreciated, if this information could be brought to the attention of all those interested and relevant organizations in Sri Lanka.

**Subject: Course Programme 2018 for Master programmes and Advanced Courses**

Dear Sir/Madam,

It is with great pleasure that we share KIT's new course programme for 2018 with you. We offer master programmes and advanced courses at our training facilities in Amsterdam, as well as other locations in the world and through e-learning. This way, KIT equips health professionals with the skills and knowledge to address public health challenges around the world.

Besides our widely known *Master in Public Health/International Course in Health Development* and our *Netherlands Course in Global Health and Tropical Medicine*, we would like to highlight the following courses:

- *Erasmus+ Master in International Health*: A blended teaching programme given partly on location and partly by innovative distance learning methods. Jointly offered by KIT Royal Tropical Institute, University of Bergen and Queen Margaret University.
- **NEW e-learning courses**: *Rebuilding Disrupted Health Systems – developing context-specific strategies for health care policies, implementation and governance* and *Mapping Inequalities in health using GIS*. Our e-learning courses allow you to combine study with work, while simultaneously benefiting from group interaction and group discussions.
- Numerous advanced courses on *Health in Fragile and Conflict-affected Environments*.
- *MPH Track in Health Systems in Fragile and Conflict-affected Environments*.

#### NFP Scholarships for KIT courses

The Netherlands Fellowship Programme (NFP) is offering multiple scholarships for students taking our courses in 2018. We bring to your attention that October 2017 is the NFP deadline for a large number of KIT courses taking place in Spring 2018. More information on other funding options can be found on our website: [www.kit.nl/fellowships](http://www.kit.nl/fellowships).

Thank you for sharing these brochures with friends, colleagues and peers, and disseminating them on to potential applicants. A digital copy of the brochure can be found on our website: [www.kit.nl/course-brochures](http://www.kit.nl/course-brochures).

If you have any questions or like to receive more hardcopies, do let us know at: [courses@kit.nl](mailto:courses@kit.nl).

Visit our website [www.kit.nl/training](http://www.kit.nl/training) for further information.

With kind regards,

Prisca Zwanikken, MD MScCH MPH PhD
