Data Collection on Internship Training Facilities

The Ministry of Health is currently planning to increase the number of intern placement in the healthcare system. To facilitate this expansion effectively, it is necessary to assess the availability and capacity of existing training and accommodation facilities within your institution.

To ensure a logical and equitable allocation of interns, the Ministry intends to collect detailed information regarding the training units, infrastructure, accommodation and other relevant resources available at your institution.

Accordingly, we kindly request you to provide the required information by completing the Google Form available at the link below:

<https://forms.gle/bLMP83Mgj3CBwfwy8>

For your reference, a sample data collection format is attached. If your institution requires access to the form link or a soft copy of the data collection format, please feel free to contact us via the following email address:

[Insert Email Address Here] dtcs.moh@gmail.com

Your cooperation in providing accurate and timely information will greatly assist the Ministry in strengthening internship training and improving healthcare service delivery.
