## Preface

The Annual Health Bulletin is a comprehensive document that gives a vast amount of health related information. This bulletin serves as a useful reference document and is widely used by health workers, researchers and others interested in the field of health development.

As there was a delay on publishing the Annual Health Bulletins during the last few years, the Ministry of Health has decided to publish Annual Health Bulletin of year 2012 and, also to publish statistics pertaining to years 2009 and 2010 separately.

Therefore, this publication is titled as Annual Health Statistics 2009 and 2010 (A separate publication will include the statistics of year 2011).

This report is mainly confined to the government health sector and presents information on four major areas: Morbidity, Mortality, Resource availability and Provision of services; to reflect the situation during year 2009 and 2010 and, the trends over the period as well.

I wish to make use of this opportunity to place on record, my sincere appreciation to all the officers, who helped us to bring out of this document.

A special word of thanks is due to the Medical Statistics Unit of this ministry which is directly responsible for publication of this document.

Sudharma Karunaratne  
Secretary  
Ministry of Health

NA - Not Available

Rate per 100,000 Population

<sup>1</sup> All Medical officers in curative, administrative and preventive services including specialists and interns<sup>2</sup> Includes Regional and Consultant Dental Surgeons<sup>3</sup> Excludes the Northern Province<sup>4</sup> Used provisional mid-year population for calculating the rate

Note: All PGIM trainees were include in Dental Surgeons category in 2007 based on 2006 estimates which was not corrected.

In 2008, this was revised by including PGIM trainees in Medical Officers Category. Therefore the total Dental Surgeons Category has reduced in 2008.

\* Provisional

NA - Not Available

Rate per 100,000 Population

<sup>1</sup> All Medical Officers in curative, administrative and preventive services including specialists and interns<sup>2</sup> Includes Regional and Consultant Dental Surgeons<sup>3</sup> Excludes the Northern Province<sup>4</sup> Used provisional mid-year population for calculating the rate

Note : All PGIM trainees were included in Dental Surgeons category in 2007 based on 2006 estimates which was not corrected.

In 2008, this was revised by including PGIM trainees in Medical Officers Category. Therefore the Total Dental Surgeons category has reduced in 2008.
