1. Field of Study

Healthcare Administration
(Nagoya University Graduate School of Medicine)

2. Qualifications

- (1) Nationality: Nationals of the country participating in the YLP. An applicant who has Japanese nationality at the time of application will not be eligible. However, persons with dual nationality who hold Japanese nationality and whose place of residence at the time of application is outside of Japan are eligible to apply as long as they choose the nationality of the other country and renounce their Japanese nationality by the date of their arrival in Japan (the acquisition of student status).
- (2) Age: In principle, under 40 years old as of October 1, 2026 (i.e. born on or after October 2, 1986). However, the age requirement may be applied flexibly. The ability/achievement of the applicants, as well as the situation in applicants' countries, are taken into account.
- (3) Academic background: A bachelor degree in health-related fields.
- (4) Competency in English: Applicants are expected to have a minimum IELTS (Academic) score of 6.0 or TOEFL-iBT score of 80 or equivalent. Applicants are required to have the ability to join discussions and write papers in English without any supplementary English language lessons.
- (5) Work experience: In principle, have at least 3 years of full-time working experience as of October 1, 2026 in healthcare fields in the public sector at a government department, and continue to work at the same place of employment at the time of application and after enrollment in the host university.
- (6) Health: Applicants must be judged to be physically able to pursue study in Japan by an examining physician, who must issue a prescribed certificate of health for the applicant.
- (7) Intention to enroll: If selected, applicants must commit to enrolling in the program.
- (8) Arrival in Japan: In principle, applicants must be able to arrive in Japan during the period specified by the accepting university, normally within two weeks before or after the first day of the course conducted by the accepting university. If the applicant cannot arrive in Japan during the specified period for personal reasons, travel expenses to Japan will not be paid.
- (9) Visa requirement: Applicants shall, in principle, newly obtain a "Student" visa at the Japanese diplomatic mission located in the applicant's country of nationality and enter Japan with the status of residence as "Student." If the applicant resides in Japan in an exceptional case before acceptance, the applicant must change or renew his/her status of residence to "Student" by the end of the month prior to the installment of the first scholarship payment. Even if the applicant originally held a status of residence such as "Permanent Resident" or "Long-term Resident", he/she should be aware that the original status might not be necessarily regranted after the expiration of the status as a MEXT Scholarship student.
- (10) Return to home country and resumption of work after the scholarship period: In accordance with the objectives of the YLP, after the scholarship period, applicants are expected to make efforts to build friendly relationships among various countries, including Japan, by creating human and intellectual networks among leaders in countries across the world. To this end, applicants should, in principle, return to their home countries by the end of the final month of the scholarship period and resume their work at the recommending authority or the organization designated by the recommending authorities among others.
- (11) Non-Eligibility: Applicants who fall under any or all of the following categories are not eligible. If identified as doing so after acceptance of the scholarship grantees, the applicants will be required to withdraw from the scholarship:

However, this stipulation does not apply to privately-financed international students who, even though they are enrolled, or are planning to enroll, in a Japanese university, verifiably complete their studies before the start of the scholarship payment period, return to their home country at the time of the scholarship application, and newly acquire the “Student” residence status and come to Japan;
- ④ Those who are currently also applying to another program under the Japanese Government Scholarship system. This includes the programs for which scholarship payments will begin in FY2025, although their final selection results have not been decided yet, and the programs for which scholarship payments will begin in FY2026;

- (2) Traveling Costs
 - ① Transportation to Japan: In principle, MEXT stipulates the travel schedule and route, and provides an economy-class airline ticket from the international airport nearest to the grantee’s home address (in principle, the country of nationality) to the Central Japan International Airport [Centrair]. The grantee shall bear at his/her own expense all costs related to domestic travel from his/her home address to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within Japan (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc. The grantee shall also bear, at his/her own expense, travel and lodging costs incurred in a third country in case there are no direct flights from the grantee’s country of nationality to the Central Japan International Airport [Centrair]. In such cases, MEXT will provide an economy-class airline ticket from the grantee’s country of nationality to the said third country, and from the third country to an international airport in Japan used on the normal route to the host university. The present address in the country of the grantee’s nationality stated in the application form is in principle regarded as the recipient’s “home address.” If, however, the address stated in the application form will be changed at the time of leaving from his/her country, the changed address will be regarded as the “home address”. For cases of travel to Japan from a country other than the grantee’s country of residence due to the grantee’s personal circumstances, MEXT will not provide an airline ticket. If a grantee will arrive in Japan before or after the specified period stated in “2. (8) Arrival in Japan”, travel expenses will not be paid.

MEXT, in principle, shall provide an economy-class airline ticket from the Centrair to the international airport (in principle, in the country of nationality) nearest to the returning grantee’s residence. The grantee shall bear at his/her own expense all costs related to travel from the grantee’s residence in Japan to the nearest international airport, airport taxes, airport usage fees, special taxes necessary for travel, travel expenses within the country of nationality (including airline transit costs), travel insurance expenses, carry-on luggage or unaccompanied baggage expenses, etc.

Payment of the scholarship will be stopped for the reasons given below. Should any of the following reasons apply, the grantee may be ordered to return a part of, or all of, the scholarship paid up to that time. Young Leaders' Program (Healthcare Administration) Curriculum Guidelines

I Overview

1. The curriculum aims to explain how modern Japan has improved national living standards at a comparatively lower cost within the last half century by introducing the concept of Western methodology and adjusting it to the Japanese culture and social system, and how healthcare administration works in the practical world. Using this knowledge, the courses pursue methods to solve the problems of healthcare administration for the country concerned.
2. Each subject covers various aspects of healthcare administration so that each student can apply what he/she has acquired in this program to the actual situation of his/her country in accordance with the economic, social, and environmental background of the respective student.
3. Going beyond instruction in skills and knowledge, the curriculum will seek to cultivate students' own ideas to identify problems and develop the ability to find solutions.
4. The curriculum aims to create human networks and enhance the understanding of the experience of post-war Japan, through interaction with leading figures engaged in healthcare administration and other fields.
5. Great emphasis in the curriculum is placed on writing the master's thesis. Students will be required to make a presentation of their master's thesis at the "Research Presentation on Master's Thesis". In addition to writing their master's thesis in English, students are encouraged to submit the manuscript of said thesis to an international journal published in English. By implementing these activities, the curriculum aims to help students obtain knowledge and skills for writing publishable papers and giving presentations on their papers.

II Participants

The course is directed at healthcare/public health administrators with at least 3 years work experience in governmental medical and welfare organizations and who are expected to serve as future national leaders. All the classes will be conducted in English, so it is necessary to have sufficient command of English to be able to join discussions and write papers without any supplementary lessons of English. The selection will be based on an overall evaluation of work experience, English proficiency test score such as IELTS, TOEFL, and Duolingo, the quality of the essays, proposed subject of master's thesis, recommendations from superiors, and an interview.
