NOTE VERBALE

The High Commission of the Republic of Cyprus presents its compliments to the High Commission for the Democratic Socialist Republic of Sri Lanka and has the honor to inform that the Cyprus Institute of Neurology and Genetics (CING), invites applications for four (4) positions of Associate Senior Scientists/ Group Heads, to establish and lead new innovative research teams at the Institute, which is a unique opportunity to be part of CING's growth and contribute to its cutting-edge achievements in the biomedical sciences. (X)

The CING, which is a world-renowned research, medical, diagnostic and academic center, is engaged in clinical care, teaching, and research across a broad spectrum of disciplines, including neurological and neuromuscular diseases, hemoglobinopathies, metabolic diseases, endocrinological and other rare diseases, chromosomal abnormalities and syndromes, cardiovascular, cancer, infectious and immune diseases.

The requirements for the said positions are mentioned in the enclosed announcement (Ref. code: ASI024). The annual starting gross salary, including 13th salary is: €60.933,67. //

Applications should be submitted at vacancies@cing.ac.cy, by **10 January 2025**, with the following documents: //

1. CV and Cover letter stating the reference code.
2. A mission statement (max. 1200 words) describing your proposed research program at CING, its expected impact, and how it aligns with our mission and vision.
3. Two reference letters.

It would be highly appreciated if the above information is kindly communicated to the pertinent authorities of Sri Lanka at the esteemed Mission's earliest convenience.

The High Commission of the Republic of Cyprus avails itself of this opportunity to renew to the High Commission for the Democratic Socialist Republic of Sri Lanka the assurances of its highest consideration.

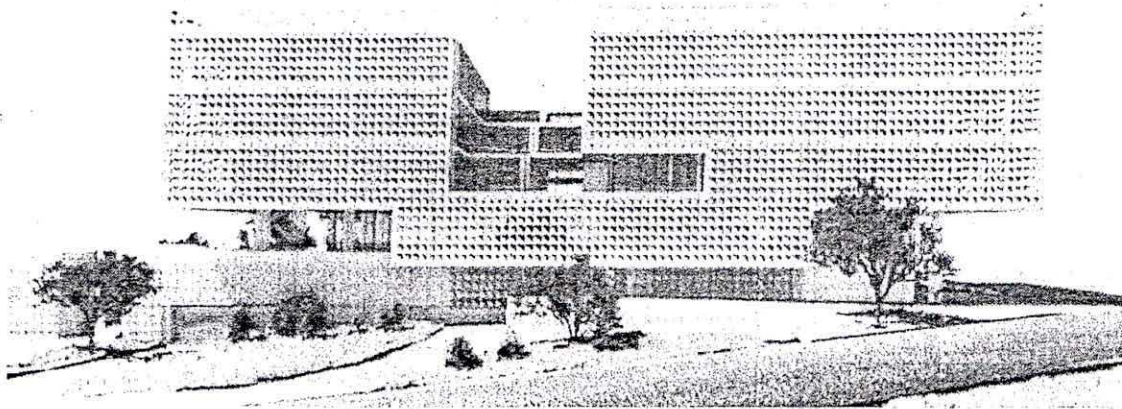

New Delhi, 04 November 2024

The High Commission for the
Democratic Socialist Republic of Sri Lanka
NEW DELHI

THE CYPRUS INSTITUTE OF NEUROLOGY & GENETICS

Associate Senior Scientists/Group Heads

Ref. code: AS1024

Lead Cutting-Edge Research at The Cyprus Institute of Neurology & Genetics (CING)

Are you ready to shape the future of science and make an impact on people's lives? Then, join CING, where innovation meets expansion and lead a team that will contribute to impactful, world-class research.

The Cyprus Institute of Neurology & Genetics (CING), a world-renowned research, medical, diagnostic, and academic centre, is expanding into a new state-of-the-art building of an area of 11,358 sq.m., where research on new emerging cutting-edge sectors in the wider health sector will be engaged through new teams.

We are inviting applications for **four (4) Associate Senior Scientists/Group Heads** to establish and lead pioneering research teams in a dynamic new space. This is a unique opportunity to be part of CING's growth and contribute to its cutting-edge achievements in the biomedical sciences.

About CING

With 16 teams and over 230 dedicated professionals, CING stands at the forefront of research, post-graduate education, diagnostic services and medical care. Our institute's mission is to pursue excellence in clinical and laboratory services, research, and education for the benefit of patients and society. Our vision: Shaping the future of science making an impact on people's lives.

CING is engaged in clinical care, teaching, and research across a broad spectrum of disciplines, including neurological and neuromuscular diseases, hemoglobinopathies, metabolic diseases, rare endocrinological and other rare diseases, chromosomal abnormalities and syndromes, cardiovascular, cancer, infectious and immune diseases. The areas of scientific activity of CING extend over a broad range of disciplines and include genetic epidemiology, investigations on the causes of diseases, disease modelling in animal (mouse) and cell-based models, novel diagnostic methods, genetic and other therapeutic approaches, identification of biomarkers, forensics, bioinformatics and biostatistics.

About the Positions:

CING invites applications for four **(4) positions of Associate Senior Scientists / Group Heads** to establish and lead new innovative research teams.

The successful candidates will be selected based on scientific excellence and the ability to engage in research programs, leading to translatable/exploitable output and benefit for the patients and society. The successful candidates will demonstrate strong leadership in managing research programs, supervising PhD students and post-doctoral fellows and will collaborate with other institutions internationally. The thematic areas of the new teams will be related to the current activities of CING, some of which are described above. For more on our current activities, visit cing.ac.cy. They could also be expanded to other research areas such as ageing, neuroimaging, assistive technologies, drug discovery, regenerative medicine, nanomedicine or other fields, in line with CING's mission and vision.

The successful candidates are expected to start on **1st November 2025**.

What we Offer:

CING provides a unique research environment, featuring:

- **State-of-the-art facilities** unmatched in Cyprus
- **Inter - and trans- disciplinary collaboration opportunities**
- **Access to clinical cohorts and samples** for medical/clinical research
- **Mentoring opportunities** for post-graduate students and post-doctoral fellows
- **Comprehensive academic career path**
- **A competitive start-up package** including:
 - Annual starting gross salary (including 13th salary), €60.933,67 (Scale A13/A14)
 - Cutting-edge lab space and equipment
 - Dedicated personnel and budget for consumables and equipment
 - Full administrative, HR, and grant management support

Who We're Looking For:

Applicants must meet the following requirements:

- PhD in a relevant field related to the current and expanding research activities of CING;
- and

- Minimum of 5 years post-qualification experience; and
- Demonstrated ability to conduct original and independent research leading to high-impact publications; and
- Proven supervisory experience; and
- Excellent command of the English language

How to Apply:

Candidates should submit at vacancies@cing.ac.cy the following by 10 January 2025

1. **CV and Cover letter** stating the reference code
2. A **mission statement** (max. 1200 words) describing your proposed research program at CING, its expected impact, and how it aligns with our mission and vision.
3. 2 reference letters

In your proposal, demonstrate how your research will integrate with complement and enhance CING's ongoing research activities.

The Cyprus Institute of Neurology & Genetics is an equal opportunities employer.
